

SIPM 00 fraction of full 16-SIPM sum

SIPM 01 fraction of full 16-SIPM sum

SIPM 02 fraction of full 16-SIPM sum

SIPM 03 fraction of full 16-SIPM sum

SIPM 04 fraction of full 16-SIPM sum

SIPM 05 fraction of full 16-SIPM sum

SIPM 06 fraction of full 16-SIPM sum

SIPM 07 fraction of full 16-SIPM sum

SIPM 08 fraction of full 16-SIPM sum

SIPM 09 fraction of full 16-SIPM sum

SIPM 10 fraction of full 16-SIPM sum

SIPM 11 fraction of full 16-SIPM sum

SIPM 12 fraction of full 16-SIPM sum

SIPM 13 fraction of full 16-SIPM sum

SIPM 14 fraction of full 16-SIPM sum

SIPM 15 fraction of full 16-SIPM sum

Fit mean fraction collected by each SiPM

Run 170, 1.250 V

Fit mean fraction ranked

Run 170, 1.250 V

Fit mean fraction

Fit mean cumulative fraction vs number of SiPMs

Run 170, 1.250 V

Resolution vs number of included SiPMs

Run 170, 1.250 V

Resolution $\times \sqrt{\text{mean}}$ vs number of included SiPMs

Run 170, 1.250 V

Mean reconstructed central signal vs number of included SiPMs

Run 170, 1.250 V

Resolution vs fitted mean signal

Run 170, 1.250 V

Full 16-SiPM central sum

Run 170, 1.250 V

Events
